

C-FIELDS®

Field Development Planning and Optimization Software

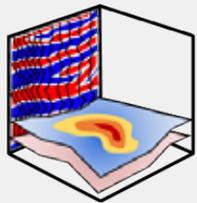

CAYROS

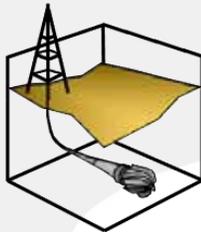

C-FIELDS[®]

Field Development Planning Software

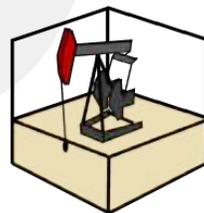

Give your multidisciplinary teams access to **real time decision-making data** while reducing cycle times, eliminating duplicated efforts, bias, and **minimizing costs**

C-FIELDS®

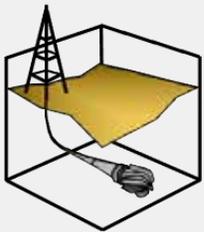

Field Development Planning Software

Cloud-based collaborative, intelligent technology!

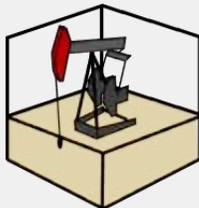

The technology behind C-Fields® has evolved over several years to become a Field Development Planning platform with true integration and real-time collaboration between multidisciplinary teams focused on **accelerating performance, efficiency, improving profitability and reducing risk.**

Reservoir Engineering

Risk Analysis

Economics

- 
- Minimize user errors integrating data across disciplines while following a consistent and coherent methodology
 - Empower every team member with shared access to reliable and up-to-date Field Development plan data
 - Make timely and informed decisions at every stage of oil and gas field development

C-FIELDS[©]

Field Development Planning Software

C-Fields[©] is an innovative Field Development Planning Software strategically designed to allow for the fast and interactive creation, and analysis of unlimited development scenarios for oil and gas projects

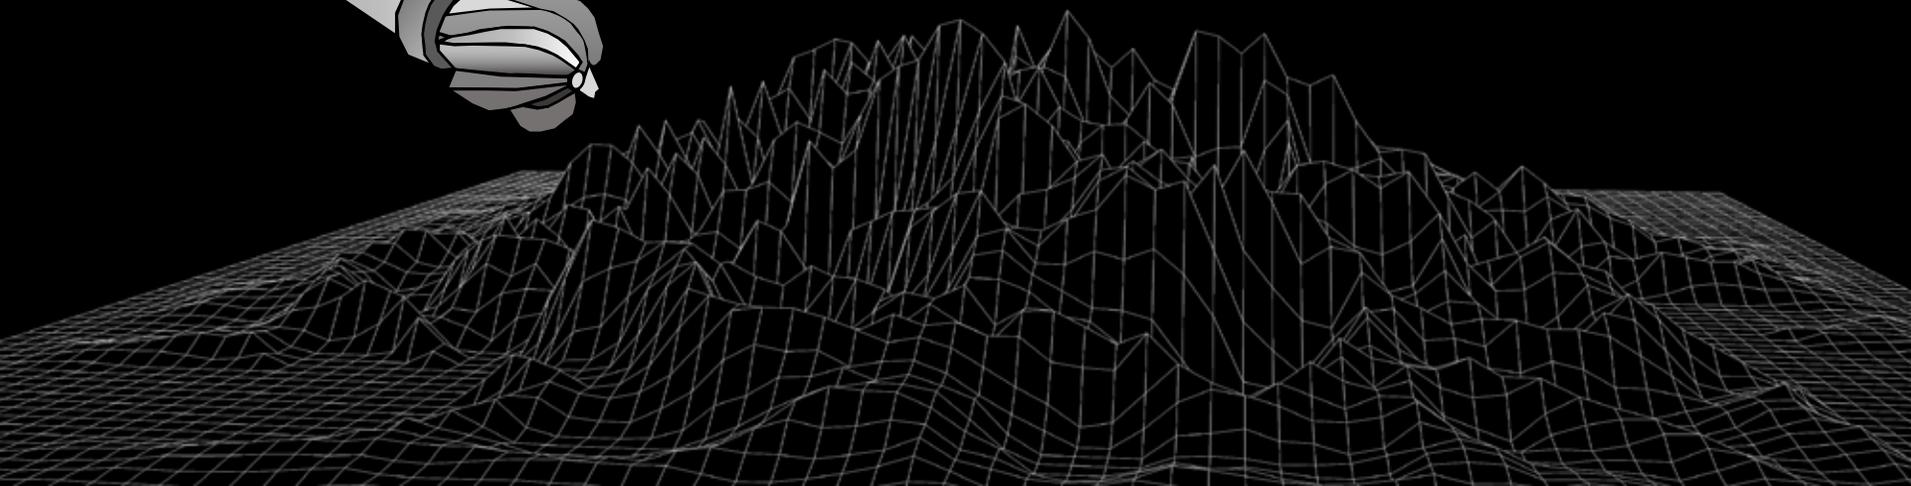

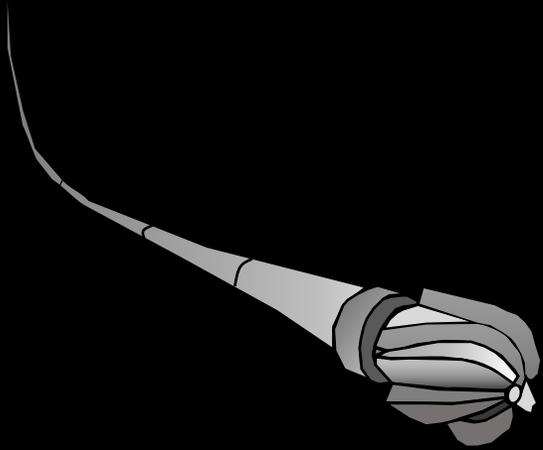

CAYROS

C-FIELDS[©]

Field Development Planning Software

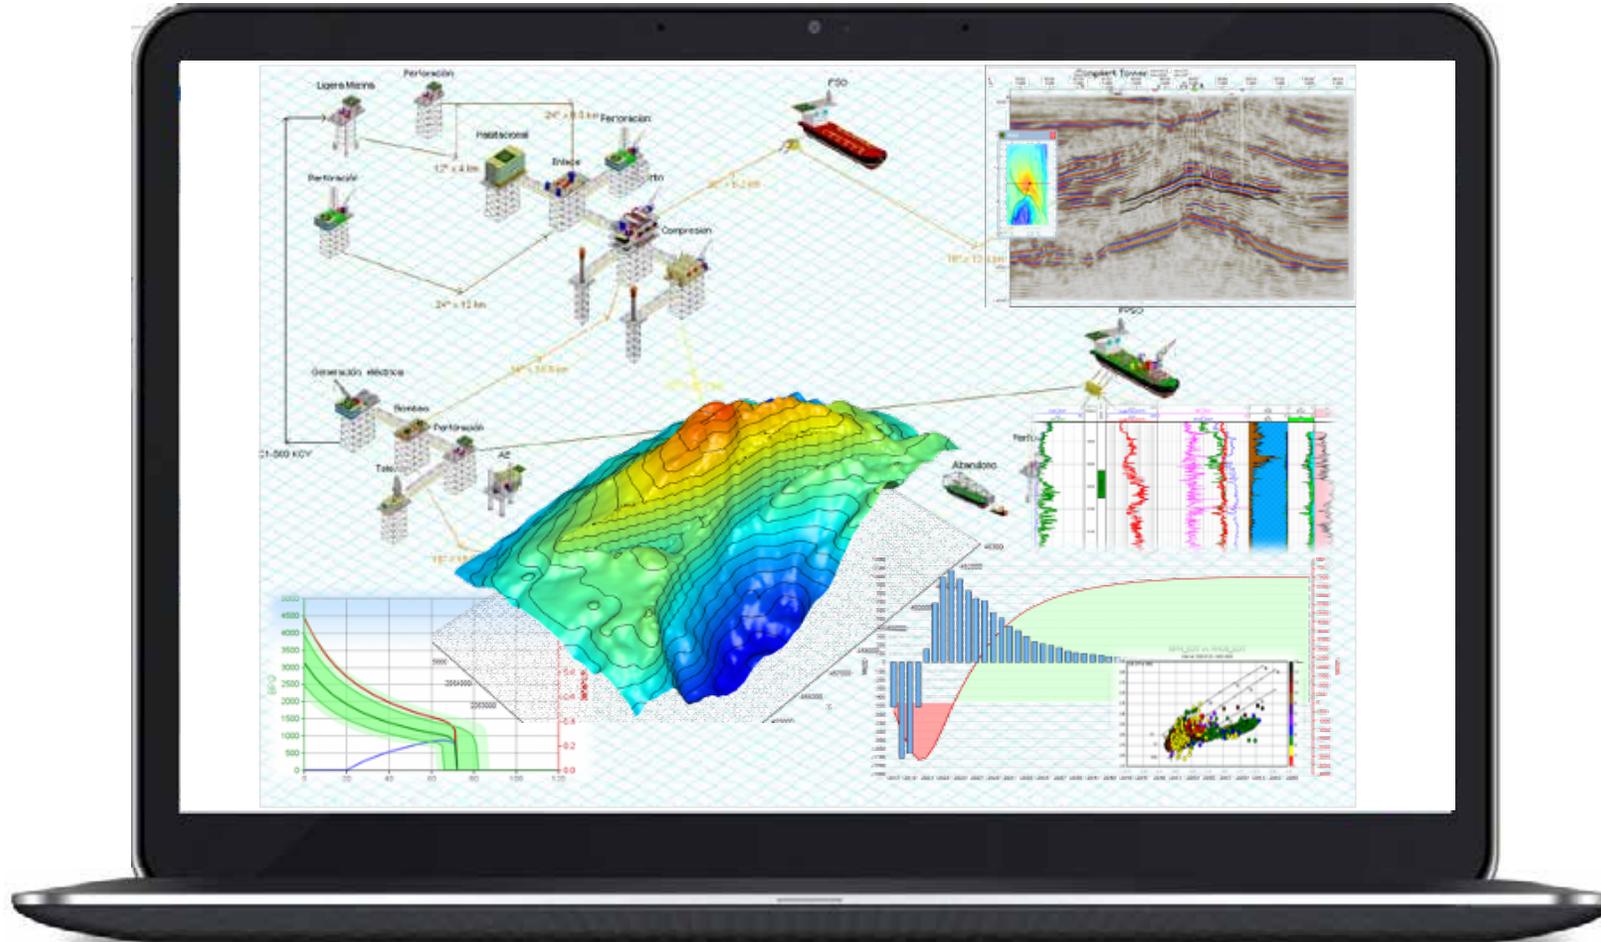

C-Fields[©] software's main objective is to allow users to make the best possible decisions in the early life cycle stages for large capital projects to minimize costs, reduce risk, accelerate project development, and improve profitability

CAYROS

C-FIELDS[©]

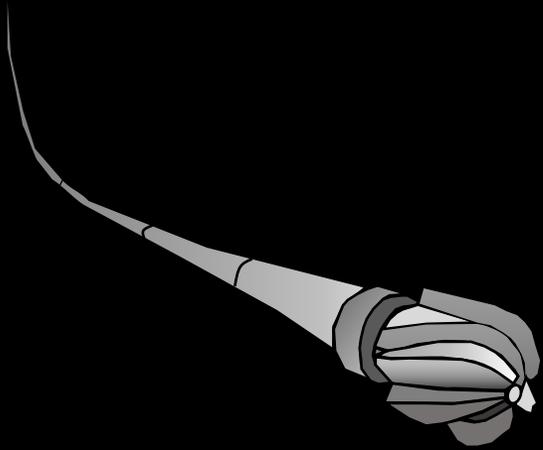

Field Development Planning Software

C-FIELDS[©]

Field Development Planning Software

- Facilitates faster strategic decision-making, supported by a real-time collaborative environment.
- Enables the evaluation and ranking of multiple scenarios simultaneously incorporating the probabilistic distribution of input parameters to capture uncertainty.
- Profitability improvement by significantly reducing evaluation time and cost.

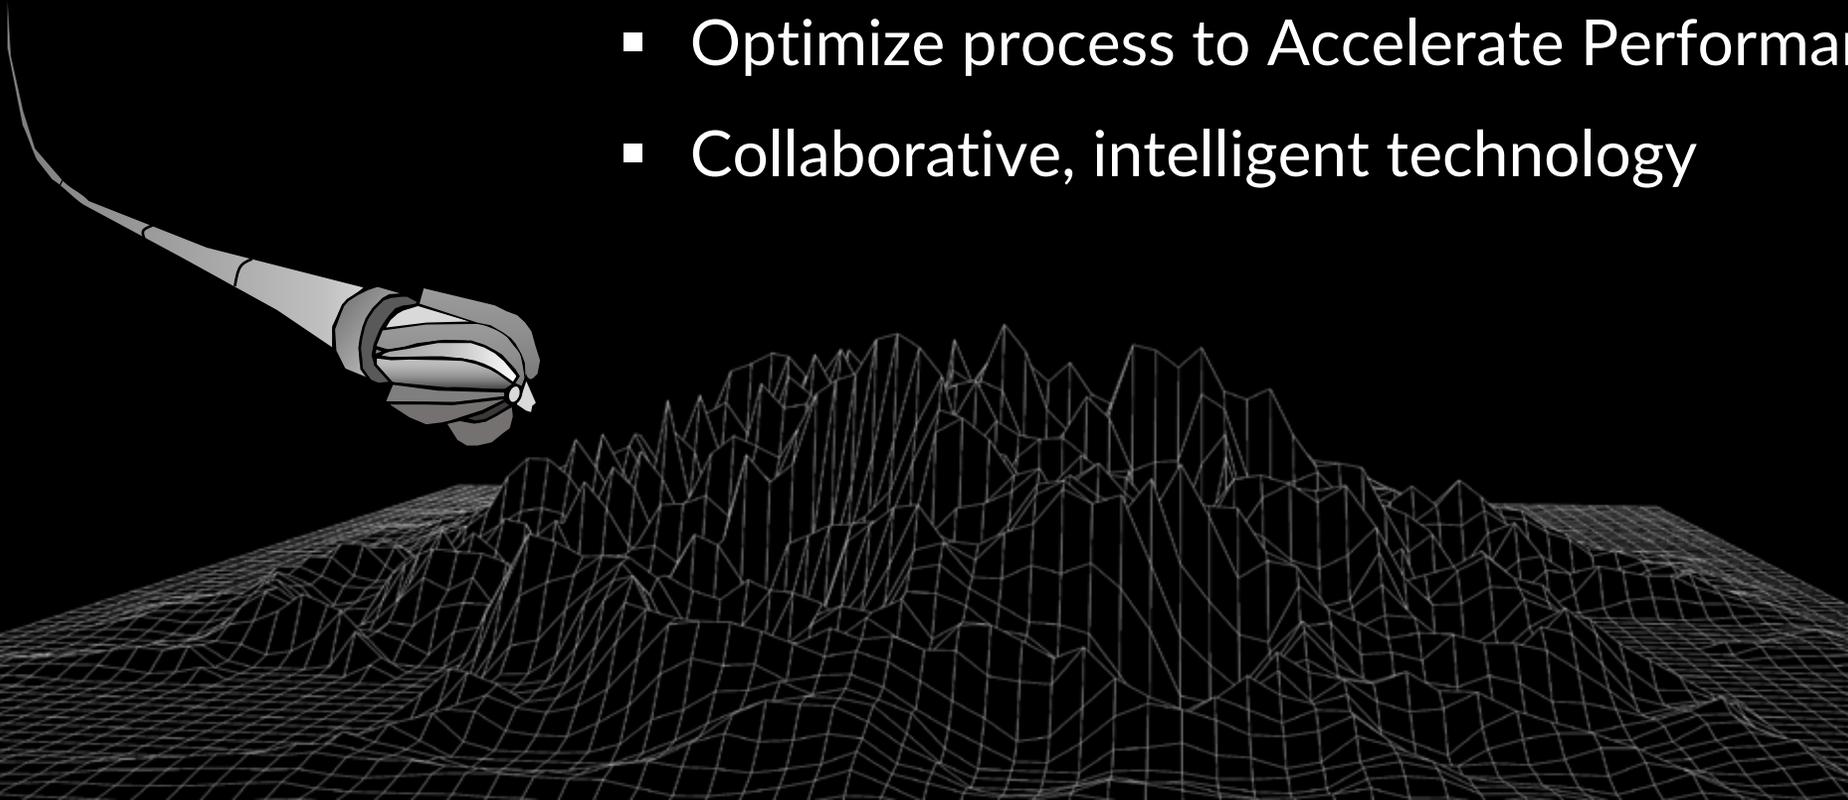

CAYROS

C-FIELDS[©]

Field Development Planning Software

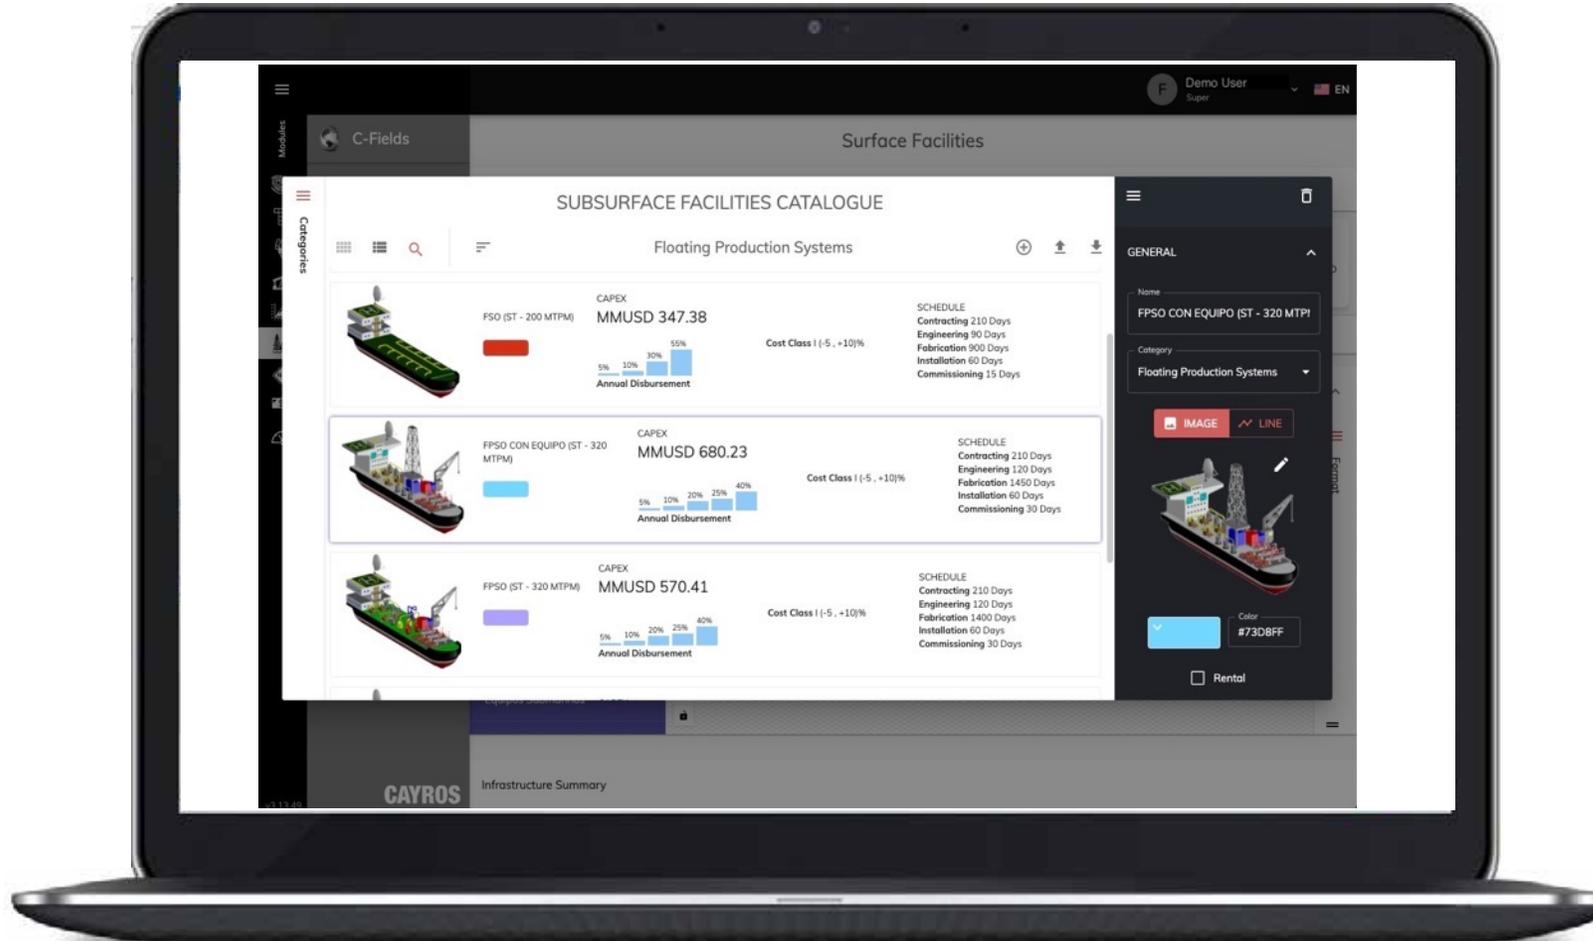

- Minimize bias using consistent corporate processes
- A single-system solution your entire team can enjoy
- Optimize process to Accelerate Performance
- Collaborative, intelligent technology

CAYROS

C-FIELDS[®]

Field Development Planning Software

C-FIELDS[©]

Field Development Planning Software

C-Fields[©] is a cloud-based platform that is fast, efficient, secure, multi-user (collaborative), multilingual, real-time, modular, and cross platform friendly.

CAYROS

CAYROS

- Geology & Geophysics
- Petrophysics
- **Field Development Planning**
- Reservoir & Production Engineering
- Facility & Process Engineering
